Hello,

English language

We are here, to invite for a new Coin/Chain(R\$IG) like PIX Money-Chain in Brazil. But without Bank's monopolium, just a Clean, Open Source, Peer-to-Peer Coin, in Bitcoin ideal. No private Bank's in creation (51% x 49%) .

News comming soon.

Thanks, Acigo.

Portugueses Language

Estamos aqui para anunciar uma nova Moeda/Merkle Tree(R\$IG) no Brasil. Mas sem o monopólio dos bancos, somente uma moeda Limpa, Open Source, Peer-to-Peer Coin, in Bitcoin ideal. Sem Bancos privados envolvidos na criação (51% x 49%) .

Novidades em breve.

Obrigado, Acigo.

Hi,

English language

Continuing.

Activity: 82
Merit: 0

Here in Brazil, at social media, in this time, exist an idea to build the (Crypt) Coin to support R\$ (REAIS) Brazilian Coin/Money.

Now we have a kind called PIX, it's like blockchain with transactions in ID.

Than, With Federal Police, Im watching in TV, whats next step. But Militar Police are in too, and Civil Police, All Polices are fighting. So, we have this scenario, easily to implement the Coin/Chain.

There is the Holder in potential for this Startup: Luis Namura(COL):

www.linkedin.com/in/luisnamura

News comming soon.

Thanks, Acigo.

Portugueses Language

Continuando.

Aqui no Brasil, nas mídias sociais dos tempos atuais, existe uma ideia no imaginário coletivo para criar uma Cripto Moeda Brasileira, pra ajudar a moeda corrente atual R\$ (REAIS).

Temos agora no Brasil uma Moeda-Encadeada chamada PIX, parecida com o blockchain porém, com o monopólio bancário.

Então, temos aqui o seguinte cenário, as Polícias estão divididas e assadas, o que é um bom cenário pois abre espaço para este projeto poder ajudar as hierarquias Brasileiras.

Aqui está um Holder em potencial para esta Startup: Luis Namura(COL):

www.linkedin.com/in/luisnamura

Novidades em breve.

Obrigado, Acigo.

Here in Brazil, we have a Municipal X Militar X Civil X Bank's (PIX Monopolium) War. I'm trying to stop this war, and in Crypto We Believe!

Thanks.

A few days ago I thought it would be good to have a cryptocurrency that we could move, like BRL, but on its own blockchain, with a wallet and other resources.

They are developing DREX, which in any case will require an intermediary, such as a bank (in my opinion, it will only look like a cryptocurrency).

PS: What TV channel are you watching or newspaper are you reading? What war is going on between the Brazilian police (military, federal and civil) and the PIX monopoly?

Translations from English to Portuguese at affordable prices. Send me a PM [here](#) on the forum or contact me via Telegram: [@cryptoheart](#)

PS: What TV channel are you watching or newspaper are you reading? What war is going on between the Brazilian police (military, federal and civil) and the PIX monopoly?

Hi Dude, Thanks for your attention,

The basic explanation of this War are: Brazil are in hole of Cold War, with a lot of Spye's(22), Drones, V2k, Microwaves, KU Band, Hypnosis, and a lot of old techeniques of Gestalpo and New Techniques comming from techonology. All world types of people are in, here, in Brazil(BRA). So, people of a lot mixed People, Yellow, Black, Blondes, Blue, Red, Green, and more: Japoneses, Americans, Russians, and so much discrepant monetary regions in contry.

All kind of people in World are in the Brazil and Because of this MIX People are in constantly War, inclusive Polices.

Than, more doubts?

There is news.

New's modules found to implement in project:

OpenUDC <https://github.com/Open-UDC/open-udc>

What does OpenUDC mean ?

[OpenUDC] (<http://openudc.org>) means Open Universal Dividend Currency. In other words, it is an open protocol for creating and exchanging currencies.

It aims to be secure, reliable and to solve some debt, crisis or globalization issues.

It notably permits to apply Universal monetary Dividend to the individuals that accept to use the currency.

It is based upon the OpenPGP protocol ([RFC4880] (<http://tools.ietf.org/html/rfc4880>)).

About Universal monetary Dividend, please read the [Theory of Money Relativity from Stephane Laborde] (<http://www.creationmonetaire.info/2012/11/theorie-relative-de-la-monnaie-2-718.html>) (in french) or at least other studies about [Social Credit] (http://en.wikipedia.org/wiki/Social_Credit).

Hi,
Just to inform about the Cold War.
Here in Brazil we have a culture of "Car License Plates" using the term "RU" to inform "Bad News" for "Intelligent Gangs of Interpretation Secrets".
Than, it will in changing process to "JP".
RU = Russian.
JP = Japan.
Can you understand me about colors on the flag and the target?
So, tomorrow we will post new technical improvement to re-think about the Startup.

Thanks,

Acigo.

What is your Profession (HD): https://www.youtube.com/watch?v=aNa3Co83_gk

Thanks,

Acigo.

There is the point what Im think about:

I'm trying to share an encrypted PGP message with multiple users.

To do this I need to:

Get the decrypted session key packets from the PGP message using
 decryptSessionKeys.

Encrypt the session key using encrypt and passing as encryption key the receiver
 PGP public key.

Create a new message with the encrypted data packets and the encrypted key
 packets from step 2.

The problem I'm having, is that I don't know how to get only the encrypted data
 packets from the PGP message to avoid having to encrypt again the data to be
 shared.

Is this possible? Or I have to create a new passphrase to encrypt the PGP
 message, and then encrypt the passphrase with the receiver PGP public key ?

Thank you!

Acigo.

Good Sunday,

Im thinking here about things.

In the SandBox context:

The unique (Port) to get in/out over/under **SandBox** are over TCP/UDP, otherwise, its broken the **SandBox** context.

Than, Im looking for (port) over/under streaming video with OCR encryption. This sound good at this point.

Thats happen because (Man In the Midle) in the Backbones, changing our compilation projects. MD5 are no more usefully.

In the Brazil Cold War context:

Here everything is going good, no one cares about Cold War, People are Killing each other, dropping bodyes over their area and its all righth for Death Merchant Economy in Brazil, so and Growing the Egoism of Unconsciousness Collective.

Than, I need time to think more about (Ectoplasm).

God Bless you(**SandBox Border**):

¹ From the first he was the Word, and the Word was in relation with God and was God.

² This Word was from the first in relation with God.

³ All things came into existence through him, and without him nothing was.

Jhon 1:1-3.

News about Cold War, and In Crypto We Trust.

In São José dos Campos - SP City, there are a lot of Black Drones Flying with Glycerine under water in the air.

This Drones are pushing people energy with magnetic bad intentions.

News, soon.

Thanks,

Again,

There is some project to study for my Startup, and step by step building White Paper:

OCR with Deep Learning: <https://github.com/harshul1610/OCR>

She has What?: Doc Scratch Reaction GIF Generator
<https://github.com/1j01/she-has-what>

So, at this point, I dont wanna talk aboutt FFDSHow Video Codec.

Thanks,

Acigo.

Good Saturday 16,

I have a question to think about my project:

- What's happening with Conversion of Variables(cast/convert), and and Phrase "If washed, its like a new."? With Logs/Lines uncleaned in memory(Wipe Free Space).

That's only and example of my mouth in bug in.

Gift Morning: Zechariah 1.

Thanks,

Nigth,

<https://web.mit.edu/~dcltdw/AOW/13.html>

XIII: On The Use Of Spies

A major military operation is a severe drain on the nation, and may be kept up for years in the struggle for one day's victory. So to fail to know the conditions of opponents because of reluctance to give rewards for intelligence is extremely inhumane, uncharacteristic of a true military leader, uncharacteristic of an assistant of the government, uncharacteristic of a victorious chief. So what enables an intelligent government and a wise military leadership to overcome others and achieve extraordinary accomplishments is foreknowledge.

Foreknowledge cannot be gotten from ghosts and spirits, cannot be had by analogy, cannot be found out by calculation. It must be obtained from people, people who know the conditions of the enemy.

There are five kinds of spy: The local spy, the inside spy, the reverse spy, the dead spy, and the living spy. When the five kinds of spies are all active, no one knows their routes - this is called organizational genius, and is valuable to the leadership.

Local spies are hired from among the people of a locality. Inside spies are hired from among enemy officials. Reverse spies are hired from among enemy spies. Dead spies transmit false intelligence to enemy spies. Living spies come back to report.

Therefore no one in the armed forces is treated as familiarly as are spies, no one is given rewards as rich as those given to spies, and no matter is more secret than espionage.

One cannot use spies without sagacity and knowledge, one cannot use spies without humanity and justice, one cannot get the truth from spies without subtlety. This is a very delicate matter indeed. Spies are useful everywhere.

If an item of intelligence is heard before a spy reports it, then both the spy and the one who told about it die.

Whenever you want to attack an army, besiege a city, or kill a person, first you must know the identities of their defending generals, their associates, their visitors, their gatekeepers, and their chamberlains, so you have your spies find out.

You must seek out enemy agents who have come to spy on you, bribe them and induce them to stay with you, so you can use them as reverse spies. By intelligence thus obtained, you can find local spies and inside spies to employ. By intelligence thus obtained, you can cause the misinformation of dead spies to be conveyed to the enemy. By intelligence thus obtained, you can get living spies to work as planned.

It is essential for a leader to know about the five kinds of espionage, and this knowledge depends on reverse spies, so reverse spies must be treated well.

So only a brilliant ruler or a wise general who can use the highly intelligent for espionage is sure of great success. This is essential for military operations, and the armies depend on this in their actions.

Childrens of Israel,

Crossroads: <https://www.youtube.com/watch?v=E8F81ug89sY>

Technical study about test's in {R\$IG}:

Test Doubles

A Test Double is an object that can stand-in for a real object in a test, similar to

how a stunt double stands in for an actor in a movie.

As I wrote in "The importance of the Tests in our Software", there are several types of tests. They are also known as Test Doubles instead of "Mocks".

The five types of Test Doubles are:

Testing with Test Doubles? Dummy, Stub, Spy, Mock or Fake
<https://jesusvalerareales.com/testing-with-test-doubles/>

Hi, Bye: **Scania Truck Drifting** https://www.youtube.com/watch?v=WITyxRnMF_M**Thanksgiving and Prayer**

3 I thank my God in all my remembrance of you, 4 always in every prayer of mine for you all making my prayer with joy, 5 because of your partnership in the gospel from the first day until now. 6 And I am sure of this, that he who began a good work in you will bring it to completion at the day of Jesus Christ. 7 It is right for me to feel this way about you all, because I hold you in my heart, for you are all partakers with me of grace,[d] both in my imprisonment and in the defense and confirmation of the gospel. 8 For God is my witness, how I yearn for you all with the affection of Christ Jesus. 9 And it is my prayer that your love may abound more and more, with knowledge and all discernment, 10 so that you may approve what is excellent, and so be pure and blameless for the day of Christ, 11 filled with the fruit of righteousness that comes through Jesus Christ, to the glory and praise of God.

(Holy Bible, Philippians 1-4).

Post Locked!

Ty, Igor.
